FABRIANO®

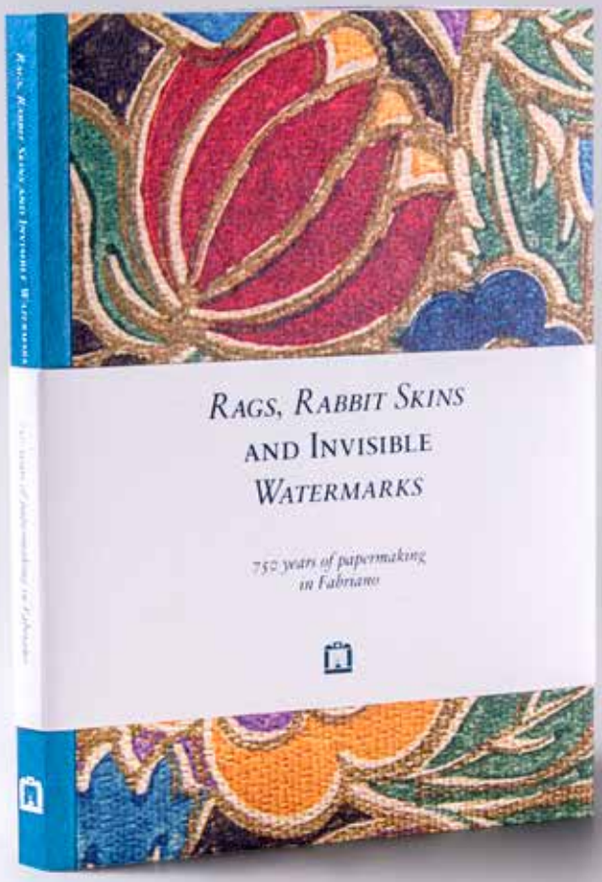
“750 years ago? That can’t be right... It’s impossible!”

This is the usual reaction when people are told how long ago Fabriano paper was born, a truly staggering anniversary that is somehow frightening and reassuring at the same time. Staggering because 30 generations have passed since 1264, during which time nations, states, empires have been born and perished; yet paper is still being made in the same place and with the same passion and dedication. Frightening for us, given that we are now the only producers of quality paper in Fabriano, and every day we try to live up to the exacting standards set by our predecessors, who issued a never-ending challenge to the future. Reassuring for those who use our paper: artists, students, writers, editors and even anyone with a banknote in their pocket. Knowing that this paper embodies eight centuries of continuous innovation combined with a profound respect for tradition makes us feel proud. A shiver runs down the spine at the thought that among the innumerable other users of this same paper can be counted Giambattista Bodoni, Michelangelo and Beethoven. Leafing through this catalogue you will find a part of our offer (in fact banknotes are not included...), products aimed to meet multiple needs. A modern paper on which to write and draw, to experience the thrill of a journey through time that is projected towards the future. An Italian paper since 750 years.

HISTORICAL WATERMARK

The symbol of the cross with four circles at its ends and one in the middle is if not the first, at least one of the first examples of watermark. The “water sign” was used to certify the Fabriano origin (Fabriano is a town) of the paper defending it against any counterfeiting attempt (the watermark technique was unknown elsewhere) and to distinguish the different workshops present in Fabriano between them (a sort of trademark). We entered this old sign in the commemorative logo of the anniversary of the Fabriano paper. In fact the watermark was invented here in the Middle Ages. On the other side, however, we want to underline its modernity: the watermark is still the easiest way to distinguish a genuine banknote from a fake. The Fabriano paper, 750 years of contemporaneity!

FABRIANO

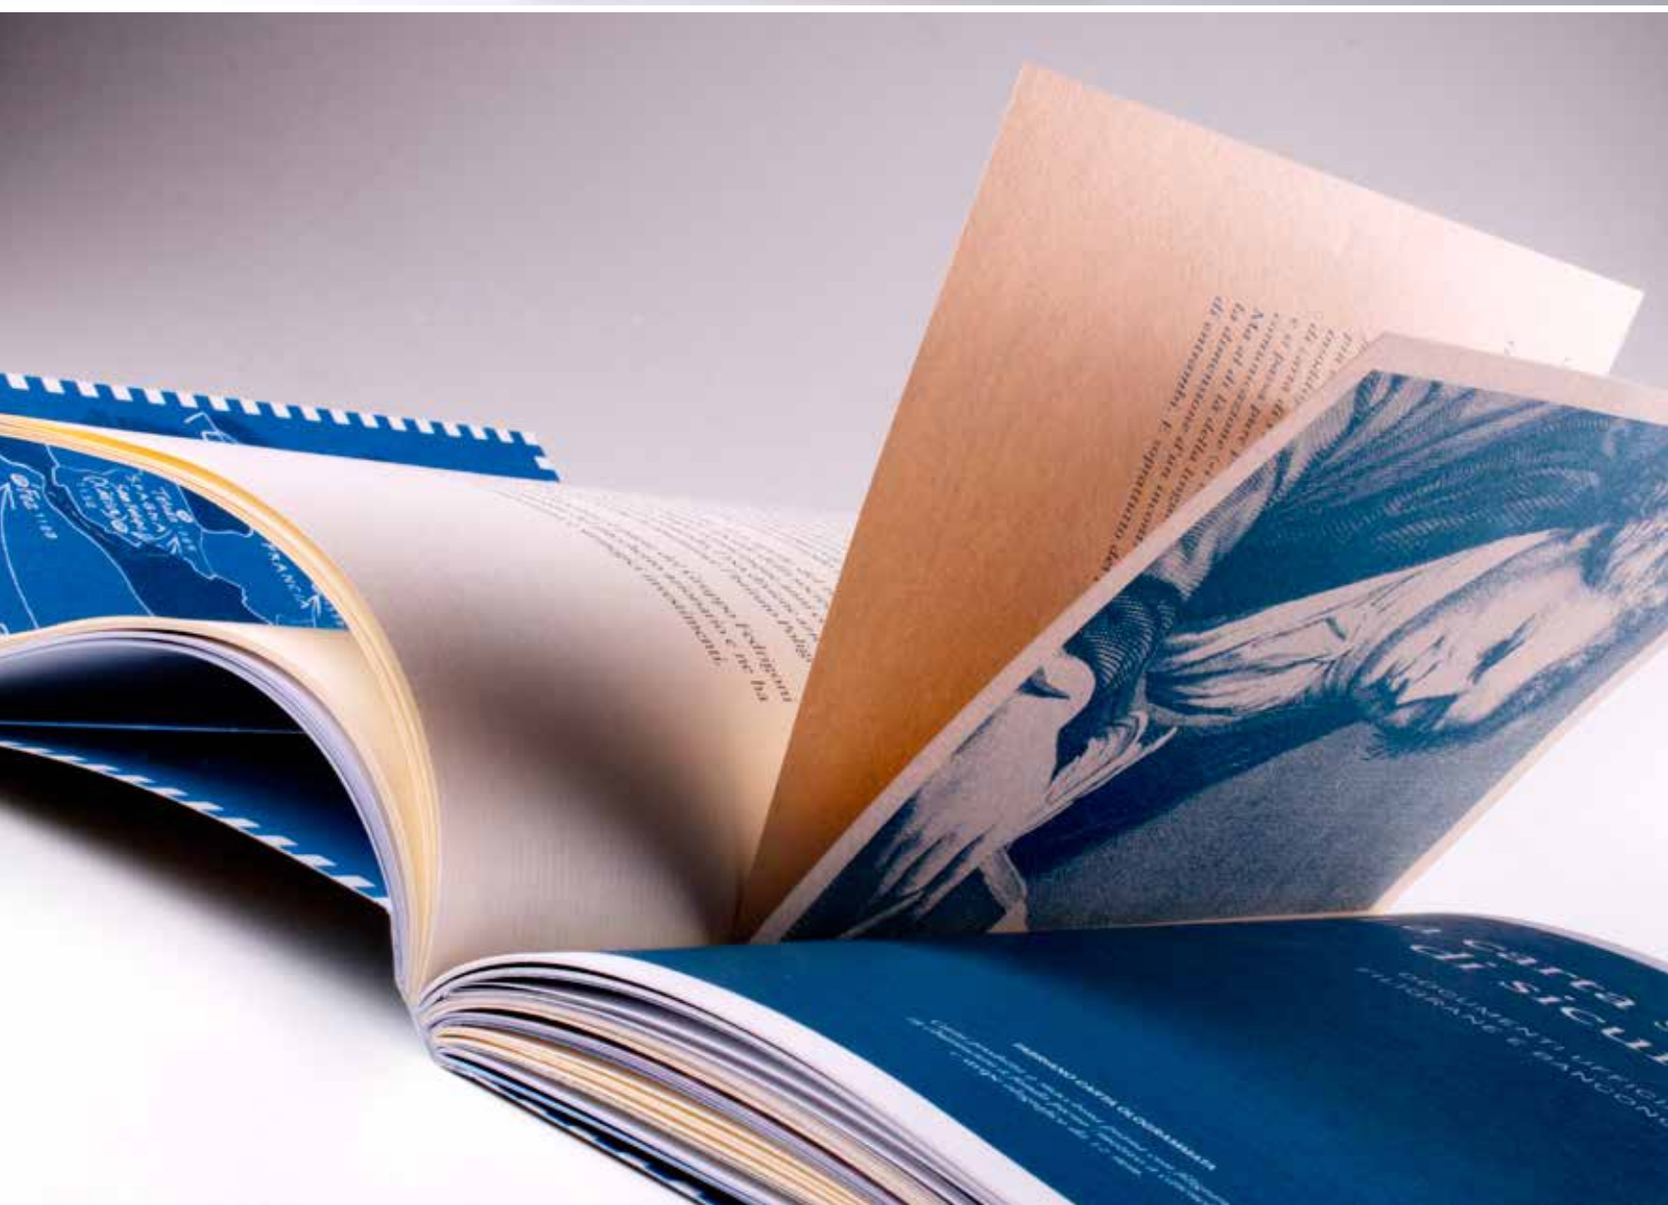


Rags, Rabbit Skins and Invisible Watermarks

750 years of papermaking in Fabriano

The book celebrates the journey of Fabriano paper from the XIII century to the present day. Eight centuries of culture and paper history packaged in a prestigious book.
We used 11 different kind of papers (including a security paper with holographic stripe), sewn cotton thread binding and monographic inserts for excellent uses of Fabriano paper.

REFERENCE: 65000005
DIMENSION: 16,5 x 25,3 cm
BINDING: Paperback with long flaps
PAGES: 144



FSC: the Forest Stewardship Council A.C. (FSC) shall promote environmentally appropriate, socially beneficial, and economically viable management of the world's forests. The wood pulp labelled with the FSC logo is certified as respectful of the forest heritage and the people living in the same area.

HYDROPOWER: this logo identifies the Fabriano papers produced with at least 60% of hydropower energy. Thanks to this renewable source of energy, generated through small power plants owned by the company, we can lower the greenhouse gas emissions contributing to the safeguard of the environment.

T.C.F.: Identifies Totally Chlorine Free bleached wood pulp. It means that the bleaching process has been made without chlorine in any form.

E.C.F.: dentifies Elemental Chlorine Free bleached wood pulp. It means that the bleaching process has been made without the use of chlorine dioxide.

ACID FREE: paper produced in neutral environment without acids. In the past for the paper sizing alum-sulphate was used generating an increase in the paper acidity and its resistance over time, obviously an undesired side effect.

LONG LIFE: the papers produced according to the ISO 9706 regulation are said Long Life. It means that the paper has to be wood free (lignin free),with a neutral-alkaline sizing and an alkaline buffer content consisting in at least 2.5% of carbonate calcium to neutralize the acidic action of the environment.

FEDEROTTICA: it is the National Association of the Italian Opticians and it is the most important and representative organization of professionals in the optical and optometric field. In our case certifies the papers respecting the standards suitable for writing and reading.

COTTON: cotton represents the most noble raw material for producing paper. Its fibres are the longest and the most flexible available on the market. The paper produced with them maintains the same characteristics, for this reason banknotes and professional artist papers are 100% cotton. Being wood free by nature cotton papers are more durable compared to wood pulp papers.

MOULD MADE: identifies the papers produced through mould cylinder machines. This kind of production gives to the paper unique characteristics similar to an hand-made paper. These represent the highest paper quality available in the market.

FABRIANO

Tiepolo

Created with 100% cotton, this paperboard is indicated for all printmaking techniques (engraving, lithography, silk-screening, xylography and linocuts). It is mould made, size 56x76 with all edges deckled. The watermark is fixed point and placed below right on the sheet. It reproduces the CMF trademark surmounted by a star and enclosed in a circle. In the 70x100 size the two larger sides are deckled and the watermark runs parallel to them, reproducing the inscription "C. M. FABRIANO 100% COTTON". Tiepolo is pH neutral, assuring inalterability over the time.

SHEETS

00011660	bianco	70 x 100	290	25
00011661	bianco	56 x 76	290	25

Rosaspina

Made with qualitatively high-level raw material (60% Cotton). Rosaspina is a mould made paperboard and suitable for all printmaking techniques (etching, lithography and silk screening). The watermark runs parallel to the two larger sides of the sheet and reproduces the Fabriano trademark and logo. The two larger sides are deckled.

Artistico Traditional White

Fabriano Artistico watercolour paper is mould made, produced with 100% cotton, chlorine and Acid Free, guaranteeing long conservation and inalterability over time. The paper is sized both internally and externally, making it ideally absorbent and retaining its nature unaltered even if scratched. Traditional white, without optical brightners. Two deckled edges and watermarked "FABRIANO+ARTISTICO" on the short side. Short grain. The high quality and ample offer of this paper satisfies the requirements of all professional artists and the most demanding amateurs. Ideal for watercolour, tempera, gouache, acrylic, ink, charcoal, graphite and drawing. It is also suitable for printmaking.

Blocco per Artisti

The Artists' Block represented a synthesis of tradition and quality that has always distinguished the Fabriano trademark. Unmistakable thanks to its refined cover and by now a "must" in the sector. Mould made paper produced with 50% cotton, Acid Free, guaranteeing long conservation. The internal and external sizing renders this paper excellent for all wet pictorial techniques. The blocks are glued on four sides to avoid the paper warping when wet. Ideal for watercolour, tempera and acrylic.

Watercolour Cold pressed

The Fabriano Watercolour paper is made of a valuable mixture of lignin free cellulose and cotton (25%). The absence of acid guarantees the inalterability over time of the paper. Produced with 100% of E.C.F. pulp (Elemental Chlorine Free), F.S.C. certified from forests responsibly managed respectful of environmental, social and economic standards. It is sized internally and externally, guaranteeing optimal absorbance. The quality/price ratio of this paper guarantees an exceptional offer for students of fine arts schools and beginners. Ideal for watercolour, tempera, gouache, acrylic, ink and drawing.

Watercolour Hot pressed

Fabriano Watercolour Studio Hot Press paper is ideal for all mixed-media fine art techniques, wet and dry. The velvety matt finish allows for a high level of detail, similar to that of a pencil. The paper is Acid Free, ecological, and made from 25% cotton fiber and lignin-free cellulose pulp. Studio Watercolor Paper is F.S.C. certified and produced using hydropower, which significantly reduces emissions of greenhouse gases in the atmosphere. Ideal for watercolour, gouache, acrylic, ink, drawing and mixed media.

Watercolour Studio Torchon

The Fabriano Watercolour Studio "Torchon" paper presents a "round" grain that allows obtaining pictorial results of particular effect. The paper is made with a valuable mixture of lignin free cotton and cellulose and Acid Free to guarantee inalterability over time. Produced with 100% of E.C.F. pulp (Elemental Chlorine Free), F.S.C. certified from forests responsibly managed respectful of environmental, social and economic standards. The sizing, both internally and externally, assures optimal absorption of the colours. Ideal for watercolour, tempera, gouache, acrylic, ink and drawing.

Tela

The Fabriano oil painting paper Tela has an internal and external sizing that offers an ideal absorption for oil colours. It is Acid Free and archival. The unique paper surface, obtained through a specialized texturing process, creates a surface similar to linen canvas. It is recommended for oil painting techniques.

Roma

Produced with 100% cotton, this handmade laid and watermarked paper has all its edged deckled and is particularly suitable for deluxe editions, fine printing, bookbinding and drawing. Roma paper is pH neutral, assuring its inalterability over time and is Totally Chlorine Free (T.C.F.). The watermark of this paper reproduces, below left, the inscription C.M. Fabriano, enclosing the image of a wolf suckling two twins within an oval and the inscription ROMA. The laid lines are parallel to the 48 cm side and the chain lines to the 66 cm side.

Murillo

This fine cardboard paper is produced with 100% E.C.F. cellulose, according to ISO 9706 LONG LIFE regulation. It is Acid Free to guarantee long permanence in time. The particular grain of the surface and the highly lightfast colours are the principal characteristics of this Acid Free paper, which is ideal for deluxe editions, art prints, brochures, calendars, passe-partout, drawing, etc.

ElleErre CartaCrea A4

This is a series of coloured paperboard, manufactured in pure cellulose in conformity with the ISO 9706 Long Life regulation. Produced with 100% of E.C.F. pulp (Elemental Chlorine Free), F.S.C. certified from forests responsibly managed respectful of environmental, social and economic standards. An ample and vivacious range of colours. It lends itself to different uses because of its two surfaces (rough at the back and smooth in front) and its characteristics, suitable in particular for schools, graphic designers, poster artists and all graphic and technical paper uses.

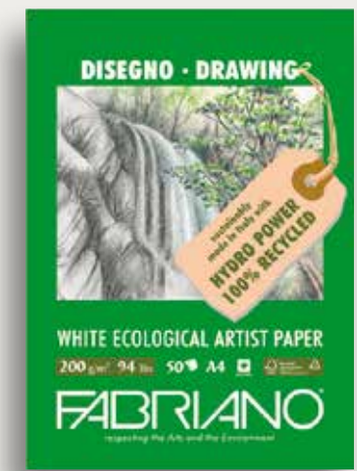
White Ecological Artist Paper



White ecological drawing paper, Acid Free, produced with 100% post consumer recycled pulp. Cold press surface very white in comparison with a common recycled paper. Its internal and external sizing makes it ideal for sketches and drawing with pencil, charcoal, pastel, coloured pencil and ink. The use of recycled pulp allows to save 15 trees every ton of paper produced (corresponding to 1.200 blocks). Thanks to hydropower 14.000.000 m³ of methane are spared, avoiding 26.000 tonnes of CO^2 air emissions. The company respects the Kyoto protocol, certified by the ministerial authorization n. 566. The paper is labelled "F.S.C. 100% recycled" guaranteeing that the product is made of post consumer reclaimed material (in this case post consumer waste office paper) in accordance with F.S.C. standards, supporting responsible use of forest resources.

Venezia Book

This elegant book is made of Accademia paper. Ideal for drawing or tempera. The nice texture on the cover is inspired by the modern mosaics present in the San Marco area of Venice. You have the best combination of Italian fine art style: Venezia and Fabriano.

VENEZIA book

reference	description	sheets	size (cm)	g/m²	unit/pack
16001015	natural grain	48	10 x 15	200	5
16001523	natural grain	48	15 x 23	200	5
16002330	natural grain	48	23 x 30	200	5

Bouquet

Assortment of 7 different paper qualities shown as pocket size notes with bright cover colours remembering a cheerful bunch of flowers (bouquet). The writing pleasure on different kind of papers. Express yourself in a creative and original way combined with different tactile experiences. The inner papers of the notes are: felt marked, embossed, parchment, vellum, laid, ecological and natural. The substances vary from 85 to 100 g/m².

Elle Erre 50 x 70

This is a series of coloured paperboard, manufactured in pure cellulose in conformity with the ISO 9706 Long Life regulation. Produced with 100% of E.C.F. pulp (Elemental Chlorine Free), F.S.C. certified from forests responsibly managed respectful of environmental, social and economic standards. An ample and vivacious range of colours. It lends itself to different uses because of its two surfaces (rough at the back and smooth in front) and its characteristics, suitable in particular for schools, graphic designers, poster artists and all graphic and technical paper uses.

*02410125	white	200	29,7 x 42	125	5

* Supplied flat A3 with a folding line at the center of the long side

Protocollo Miliaflex for printers

Foolscap paper specifically conceived for notary archives, perfectly suitable for laser and inkjet printing. Printed "stamp use" in front and in full background grey at the rear. In the area corresponding to the lines it carries the inscription "space not usable" in negative. High substance paper, Miliaflex watermarked, produced with high quality cellulose and neutral gluing, guaranteeing perfect conservation over time (200 years). Produced with 100% pure E.F.C (Elemental Chlorine Free) cellulose - Acid Free with alkaline reserve guaranteeing long conservation – Long Life (ISO 9706).

02101125	"uso bollo" ruled	250	21 x 29,7	125	3

Protocollo Uso Bollo for printers

Foolscap paper suitable for inkjet printing. The continuous module protocol has been conceived for impact printers. The easy to handle container together with the micro-perforations and the lateral dragging holes make supplying the printer particularly easy. Both types are "stamp use" printers in front and in full background grey at the rear. In the area corresponding to the lines they carry the inscription "space not usable" in negative. Produced with 100% pure E.F.C (Elemental Chlorine Free) cellulose - Acid Free with alkaline reserve guaranteeing long conservation – Long Life (ISO 9706).
